IMPORTANT SCHOOL PROPERTY ANNOUNCEMENTS

We are coming to the end of very positive work on our property that means our classrooms and general rooms throughout the school have much more effective and efficient lighting, switches that are all very safe RCDs and other improvements to classroom insulation and noise reduction have happened.

Unfortunately, with good news also usually comes news that is more challenging. We have had engineers looking at the stability of our land, particularly behind Room 5. The engineers have today advised us that there should be more significant testing and work done over the winter months on Room 5's stability. This means that we quickly have to relocate our Room 5 from their classroom to the school Hall. The school hall will be fully set-up as Room 5's temporary classroom, probably for at least 3 months while this testing and work is done. We are committed to ensuring that all the teaching and learning facilities in Room 5 are moved to and available in the Hall so teaching and learning can be of the same top quality. We have to discuss as a staff how this will affect other events that we would commonly have occur in the school hall such as our assemblies, Friday sharings and kapa haka. We will advise everyone about these events when we have been able to have those discussions and make those decisions. If you have any questions, please don't hesitate to contact me at school.

A NEW SCHOOL
APP IS COMING
SOON!

What is the @school Parent Portal?

Our Student Management Providers, eTAP, have recently put out an app for parents, on which parents can see information about their child, receive messages, log an absence and much more!

The @school Parent Portal offers parents and guardians real time access to their child's information at school – assessments (in the future), attendance, school activities, class activities. The Parent Portal is an easy to use communications tool that allows parents to take a more active role in their child's education.

Who may access the Parent Portal?

Parent(s)/guardian(s) who have a user name and password. Each parent/guardian is issued with their own logon and password.

Only parents/guardians at schools using the eTAP student management system can access @school.

Next week we will be sending out video links to set-up instructions and we will follow that with the username email and then a separate PASSWORD email.
